

*products for laboratory and science furniture*

## Easy, all the way!

Well functioning water flows are essential in every laboratory.

Are you looking for products which are easy to implement in your furniture and which will make laboratory workers enthusiastic?

Labstream® offers you a range of products which will provide this. They fit well in a modern, flexible and durable laboratory environment.

**Labstream® products are characterised by the following features:**

- installation and dismantling can be done within a few minutes
- made of durable, acid- resistant plastics
- easy to clean
- suitable for application in almost all types of laboratories

## Kappa (-Plus) sinks

42-3232P	320x320x200mm
42-4030	400x300x250mm
42-4040P	400x400x250mm
42-4545	450x450x250mm
42-5040P	500x400x250mm
42-6045	600x450x250mm

several colours available

Polypropylene sinks, suitable for drop-on as well as for undermount installation.  
Supplied inclusive strainer and 1 1/2" waste connection.

### Available as option:

- fixing set for drop-on installation
- standpipe
- overflow assembly

## Gamma sinks

42-3085	300x85x140mm
42-4010	400x100x150mm
42-2525	250x250x200mm
42-3015	300x160x230mm

several colours available

Polypropylene sinks, suitable for undermount installation.  
Supplied inclusive strainer and 1 1/2" waste connection

### Available as option:

- standpipe

## Special sinks

42-1347G	suspension sink
42-6030	service-unit sink 600x300mm
41-6161G	service-unit sink 610x610mm

colour: light grey

Polypropylene sinks, suitable for wall-mount / drop-on installation on service units.

Supplied inclusive strainer and 1 1/2" waste connection

### Available as option:

- standpipe
- wall brackets (for 42-1347G)

## Drip cups

42-497	small oval drip cup 150x70mm
42-298	large oval drip cup 230x75mm
42-501	small round drup cup ø80mm
42-500	large round drip cup ø140mm

several colours available

Polypropylene drip cups, suitable for drop-in as well as for undermount installation.

Supplied inclusive fixed strainer, 1 1/2" waste connection, washer and nut

### Available as option:

- bracket for drop-in installation

## Separators for sediments

50-0850	ø 320mm, capacity 6,5 litre
50-0900	ø 400mm, capacity 18 litre

Polypropylene separators, for installation under or near a sink.

Supplied inclusive integrated water seal and 2 quick-connect couplings ø 50mm

### Available as option:

- stainless steel support with castors

## Neutralisation unit

50-0040	ø 400mm
---------	---------

Polypropylene neutralisation unit, for installation under or near a sink.

Supplied inclusive fixed support with castors, integrated water seal and 1 1/2" connections.

### Available as option:

- 12,5 kg neutralisation grains (for 1 filling)

#### HDPE diluton traps

50-402 with heat resistant glass base for visual inspection. Connection 1 1/2" x 50mm

50-226 for combining up to 3 inlets to 1 outlet. Connections 1 1/2"

#### Dilution traps

- 50-402 dilution trap with glass base, 2,3 litre
- 50-226 dilution combination trap, 4,5 litre

Polypropylene universal S/P traps. Outlet can be turned in horizontal as well in vertical position.

#### Universal traps

- 52-205 inlet 1 1/2", outlet ø50mm
- 52-250 inlet ø50mm, outlet ø50mm
- 52-253 inlet ø40mm, outlet ø50mm

Polypropylene bottle traps with adjustable inlet height.

#### Bottle traps

- 52-201 inlet 1 1/2", outlet ø40mm
- 52-202 same, with clear base
- 52-203 inlet 1 1/2", outlet 1 1/2" mech.
- 52-204 same, with clear base

Polypropylene hand tightening connection fittings.

#### Fittings

- 52-252 waste connection 1 1/2" x ø40mm
- 52-251 waste connection 1 1/2" x ø50mm
- 52-240 adapter 1 1/2" x 1 1/2" mech.
- 52-214 straight coupling ø40mm
- 52-215 straight coupling ø50mm
- 52-217 t-piece ø40mm
- 52-218 t-piece ø50mm
- 52-211 elbow ø40mm
- 52-212 elbow ø50mm

Polypropylene waste fittings and matching standpipes. Waste fitting with overflow 52-221/316 comes with stainless steel 316 flange. Waste fittings inclusive rubber seals and nut. Standpipes match with waste fittings 52-208 and 52-209

#### Waste fittings and standpipes

- 52-208 waste fitting 1 1/2", ø70x55mm
- 52-209 waste fitting 1 1/2", ø85x110mm
- 52-221/316 waste fitting 1 1/2" with overflow
- 51-210 standpipe 210mm
- 51-113 standpipe 460mm

Polypropylene pegboards suitable for wall mount installation.

Inclusive drip channel, waste and drain hose.

#### Pegboards

- 51-4350G 600 x 450mm
- 51-4351G 900 x 450mm
- 51-4352G 1200 x 450mm

colour: light grey

# Labstream: Easy all the way!

Labstream® products match well with all types of furniture and can be installed easily and efficiently.

This will reduce the costs of installation and minimizes risk of delays during the project phase.

## Labstream® products are easy:

- to produce production of thermoplastic products requires less energy compared to many other materials
- to implement drawings and specifications are online available at [www.labstream.eu](http://www.labstream.eu)
- to ship lightweight, stackable (at least 48 sinks on a standard pallet)
- to install installation can be done within a few minutes by anyone
- in use friendly for glassware, chemical resistant
- to clean easy to clean with standard cleaning agents
- to (re)move lightweight and dismountable
- to discharge the different used raw materials can be separated easily and are recyclable
